Official Statement of "Guardians of Pahlavi Constitutional Monarchy"
Number: 84-02, Date: January 16, 2026

History Will Judge You;
We Will Neither Forgive Nor Forget

To all Leftists, Neo-Leftists, Globalists, and all those rebels who tore their chests in the streets every day for Gaza but now live in absolute silence regarding the massacre of the oppressed Iranian nation;

To all leaders of countries who, instead of practical actions against this criminal regime, suffice with theatrical measures and condemnations, or even worse, strive for the survival of this demonic regime;

And to the fake pseudo-opposition of the Islamic Republic, who these days are busy with blood-washing, whitewashing, and covering up the regime's crimes, and distracting public opinion from the unified demand of the Iranian nation inside and outside the country for the overthrow of the clerical regime and the return of the Pahlavi monarchy;

What is the reason for this heavy silence, passivity, and inhumane behavior? What is the reason for your opposition to the Iranian nation's demand for the overthrow of the regime and the return of the glorious Pahlavi monarchy? Do you not see the peak of the crimes of the occupying and terrorist regime of the Islamic Republic? Do you not hear the overthrow-seeking and pro-monarchy cries of the Iranian nation? Do you understand the meaning and concept of the regime's crimes against the rightful demand of the Iranian nation?

What has happened? Why are you silent? Why are you obstructing the path of the Iranian nation? Where is the flaw in your actions? For your misplaced behavior, having clearly stood on the wrong side of history, there are no more than three justifications:

The first justification is that you are blind and deaf and do not see or hear? You see neither the uprising of the Iranian nation nor the crimes of the regime; you hear neither the cry of the oppressed nation nor the sound of bullets!

The second justification is that perhaps you see and hear, but lack the power to understand and comprehend it? You are ignorant and foolish and unable to grasp what you see and hear!

And the third justification, and worst of all, is that you both see and hear, and you understand and comprehend, but you are liars, charlatans, and opportunists, and you are deliberately engaged in lying, whitewashing, collaborating with criminals, and ignoring the demand of a great nation!

In all three cases, shame on you, for you are a disgrace to history, a shame to humanity, a humiliation to conscience, and a degradation of honor.

We, the great nation of Iran, have started this battle and will finish it with victory at any cost, but neither we nor history will forget your neutrality and dishonor. Your words and deeds today will lay the foundation of Imperial Iran's relations in the coming years, decades, and centuries, and I swear by Iran that we will neither forgive nor forget.

Secretary-General and Spokesperson for Guardians of Pahlavi Constitutional Monarchy
